OF DISTINCTIVE SMARTNESS

As you pass along a city street, you'll now and then notice a man or woman so much better dressed than the average that your attention is instinctively drawn to the wearer. Taste, neatness, good style and exact fit are all apparent—the whole get-up is distinctly smart and clean-cut. How do they do it?

Let us tell you a secret. The great thing is to wear clothes that are of fresh, new style, fit becomingly, and particularly that are cut and tailored by designers who know how to make their clothes show this unusual air of smartness.

We sell that sort of clothes for men—"Correct Clothes for Gentlemen" they're called. They're worn by the most particular and best-dressed men everywhere—who buy nothing but the best.

NEW FALL STYLES IN "Correct Clothes for Gentlemen"

We have the identical new Fall designs that you'll see worn in the big cities this season—Clothes of distinctive and distinguishing smartness. You can't equal them elsewhere in town—you can't anywhere get better or more stylish garments than the famous SCHLOSS models.

Come in and let us show them to you. The prices are not high and our stock is very complete, including all the very latest designs. We specially invite you to call at once before the best things are gone.

Suits and Overcoats \$5 to \$25.

Forest Mills
Underwear

Forest Mills Underwear gives better satisfaction than other makes because each garment is cut on an exact system of measurement of perfectly formed women—the sizes never vary—the buttons and button holes are perfect—they won't come off nor will the latter tear. Washing spoils most underwear—Forest Mills stands the test—and a point not to be overlooked is that these goods are no higher than inferior makes.

Poor goods are never cheap no matter the price.
If you do not buy of us you do not get the best.

And all is Well.
Abbeville is opening more streets and building more houses than anybody. Land about here commands unprecedented prices. The business of the town is as good as anybody could expect. The high price of cotton and the large crop is doing the good work. The corn crop is said to be a record breaker. Debtors are happy and creditors are simply hilarious and overcome with joy. Nearly every girl has more lovers than she knows how to dispose of. Some of the girls, however, have accepted invitations to go sailing over seas of bliss to the happy land on the other shore. Our schools are full of the prettiest young girls, and then there is a handsome boy for each little girl. The old folk are all pious and devout worshippers. The preachers are proud of their congregations on Sunday and the congregations are proud of their pastors every day in the week. The preachers show us along the King's highway, and all we have to do is follow in the paths that our fathers trod.

It is not known how many souls attend service on Sunday morning, but we estimate as follows:
At the Methodist..... 175
" Presbyterian..... 100
" Baptist..... 85
" Episcopal..... 43
" A. R. P..... 49
 462

As a matter of curiosity we would be glad if some one would count the attendance at the different churches next Sunday morning and report to us how far we have missed the correct figures.
Due West has a less population than Abbeville, but we are informed that the attendance at the A. R. P. church in that town on Sunday morning exceeds 600. We have no information as to how many attend service in the Baptist church in that town. Due West certainly takes the lead in church attendance. In point of piety and morals they are not exceeded by any community on this earth.

Twenty Years.
Mr. M. Brown Syfan, baggage master all the time, and sometimes conductor, has celebrated his twentieth anniversary in the employ of the Southern Railway. He works so nearly all the time that he does not know how to rest. Efficient in the discharge of his duties and always polite to the people he has a host of friends, who hope that the day may have a better place in store for him some day. If you don't believe he works while the train is in the yard, just watch him, and watch the engineer watch him while the cars shift and butt each other on a limited sidetrack accommodation. The freight boxes not so long ago opened up a new line for an additional side track when they got loose and butted Mr. Hammond's warehouse into the middle of next week. Where the end of a brick house has so long stood is now an open way for lengthening the long needed additional sidetrack. But we started out to tell how good and how efficient, and how steady Mr. Syfan has been. Having been faithful in the less pretentious service, the road will no doubt promote him some day, even as it did Mr. F. L. Morrow from clerk to station agent.
Mr. Morrow has in training young Mr. Hal Kinard, who will make a first class agent. As a courteous and as an able assistant he is now up to all the highest as well as all the severest requirements. In time Mr. Kinard will be called up higher, and his industry and his fidelity will be rewarded.
As our readers know, Mr. C. D. Brown, the polite and efficient agent for twenty years, has been promoted to a better job, with better salary than heretofore. And so it is, the world moves and our good men must keep up with the procession.

National Steel Range.

Read what a Hotel man says of his "National."
"Phillips & Buttorff Mfg. Co.,
Nashville, Tenn.
"Gentlemen:—Regarding the National Steel Range furnished us will say that it has been in constant use since August 1st, 1903. Not a cent's worth of repairs has been required, and it gives the best of satisfaction. We frankly say that none better can be had, and I have used about all of the prominent makes in the United States during my twenty years hotel experience."
Yours very truly, Wm. Hewitt,
Manager Aetherwood Hotel.

"Then good and faithful servant."
Messrs. Phillips & Buttorff Mfg. Co.,
Nashville, Tenn.
"Gentlemen:—In 1882, just after my marriage, I bought an Enterprise Stove, and have used it continuously from that time on. In nearly 23 years, it has cost me just 45 cents for repairs, and according to all appearances, it is good for years to come. It uses an incredibly small amount of fuel for the work it does."
Mrs. Edward Dickens,
822 3d Avenue S. Nashville, Tenn.

Land-Going and Coming.
Anderson, S. C., Oct. 1, 1907.
To my Friends in Abbeville County:
I am now connected as Manager with the Anderson Real Estate and Investment Company, one of the best equipped agencies in South Carolina for handling real estate. I had a disposition among Anderson county people to buy Abbeville lands and on account of my familiarity with your county, I am in a good position to do the business.
If you want to sell land, write me telling upon receipt of your letter, if it looks like a proposition that we can handle, I will come to see you and look the property over.
Do you know that often a broker can sell your land even to a neighbor better than you can yourself. If you want to buy a certain piece of property, let us know and let me see if I can't deliver you the deed.
If you have some land that you can't look after that is run down, let me sell it to some one who will go on it. Right now I can use some cheap land with a lot of timber on it. We can handle land anywhere in upper South Carolina.
